QUALITY, HEALTH, SAFETY & ENVIRONMENT

QHSE POLICY

At Eastern Vertex Contracting Co. (EVC), we provide engineering and construction services to the energy and industrial sectors with an unwavering commitment to Quality, Health, Safety, and Environmental (QHSE) excellence. We are dedicated to continuously improving the quality of our services by implementing industry best practices, complying with all applicable legal and client requirements, and fostering a culture of continual improvement.

Our objective is to consistently deliver projects that meet or exceed client expectations while ensuring that health, safety, and environmental protection are never compromised. QHSE compliance is a fundamental management responsibility and an integral part of every business activity. Every EVC employee, supervisor, and subcontractor shares responsibility for maintaining a safe workplace, protecting the environment, preventing injuries and occupational illnesses, and delivering quality workmanship.

Through effective leadership, competent personnel, risk-based planning, and continuous monitoring of our performance, EVC strives to achieve zero harm, minimize environmental impacts, and build lasting partnerships with our clients based on trust, reliability, and operational excellence.

OUR COMMITMENTS

- ✓ Complying fully with applicable regulations, legal requirements, and client HSE specifications.
- ✓ Setting, reviewing, and reporting measurable QHSE objectives and targets on every project.
- ✓ Placing employee health and continuous improvement of the work environment at the centre of our planning.
- ✓ Applying hazard identification, risk assessment, and pollution-prevention controls before work begins.
- ✓ Providing induction, training, and supervision so every person under our control understands their responsibilities.
- ✓ Striving continuously for zero harm to personnel, assets, and the environment on every site we operate.

VISION

To become one of the Kingdom's most trusted engineering and industrial services partners — recognised for delivering safe, reliable, and high-quality piping, pipeline, and construction solutions that create lasting value for our clients, our people, and our stakeholders.

MISSION

To deliver integrated EPCC, piping, pipeline, hot-tapping, coating, and commissioning services of the highest safety and quality standard — building on more than three decades of hands-on field experience to be a dependable, long-term partner to the Kingdom's energy and industrial sectors.

MESSAGE FROM THE CEO

“Building the future begins with honoring the values that built our past.”

More than thirty years ago, our founder began his journey in the industrial construction sector in Pakistan. That path would one day lead to delivering hundreds of kilometres of cross-country pipelines, executing complex hot taps and upstream/downstream piping systems, and contributing to some of the most challenging energy and infrastructure projects in the Kingdom of Saudi Arabia.

While the scale of our projects has grown, the principles that guide our work have remained unchanged: discipline in execution, an uncompromising commitment to safety, technical excellence, and a promise that every project is delivered to the highest standard of quality on schedule and within budget. Eastern Vertex Contracting Co. was established to carry these values into a new era, backed by Aramco-approved construction professionals, PMP®-certified project managers, and internationally qualified quality specialists.

WHO WE ARE

ABOUT EASTERN VERTEX CONTRACTING CO.

شركة إيسترن فير تيكس كونتراكتينغ

Eastern Vertex Contracting Co. (EVC) is a Saudi Arabia-based engineering, construction, and industrial services company built upon more than three decades of proven field experience. Our heritage traces back over 30 years to Pakistan, where our leadership successfully executed piping, pipeline construction, storage tank fabrication, LPG bowser fabrication, and industrial infrastructure projects under the Mustafai Engineering Company banner. This strong foundation of technical excellence, QHSE discipline, and reliability has evolved into Eastern Vertex Contracting Co., enabling us to support some of the Kingdom's most prestigious energy and industrial developments.

Today, EVC proudly delivers engineering, procurement, construction, mechanical, piping, pipeline, coating, testing, pre-commissioning, and commissioning services across the oil & gas, petrochemical, power, water, and industrial sectors — with the capability to execute projects for leading organisations including Saudi Aramco, SABIC, Saudi Electricity Company (SEC), Ma'aden, SWCC, and other major public and private sector clients.

BY THE NUMBERS

EVC AT A GLANCE

30+

YEARS COMBINED
FIELD EXPERIENCE

1000+ KM

PIPELINES
CONSTRUCTED

MULTIPLE

HOT TAPS &
TIE-INS EXECUTED

MULTIPLE

ARAMCO-APPROVED
ROLE APPROVALS

These figures reflect the combined, hands-on field experience of EVC's leadership and core team across Saudi Arabia and Pakistan — spanning cross-country pipelines, upstream facility tie-ins, hot tapping, power plant construction, and industrial piping programs.

SINCE THE EARLY 1990S

OUR HERITAGE (OVER 30 YEARS OF ENGINEERING EXCELLENCE)

Long before the establishment of Eastern Vertex Contracting Co. (EVC), our leadership had already built a distinguished reputation through more than three decades of successful project execution across Pakistan's oil & gas, power generation, industrial manufacturing, and infrastructure sectors. Operating under the Mustafai Engineering Company banner, our team delivered pipeline construction, storage tank fabrication, industrial piping, mechanical installation, boiler erection, coating, painting, and maintenance services for major industrial clients, and supported operations in Pakistan's major gas fields, including Zamzama and Kadanwari. This legacy of technical excellence and disciplined execution forms the cornerstone of Eastern Vertex Contracting Co. today.

LEGACY CLIENTS & PARTNERS

CAPABILITIES

OUR AREAS OF EXPERTISE

- ✓ EPCC Project & Construction Management
- ✓ Wellpad Construction & Pipeline Tie-Ins
- ✓ Storage Tank Construction & Modification
- ✓ Piping Prefabrication, Erection & Hydro-Testing
- ✓ Fireproofing, Cement Lining & Refractory Works
- ✓ Structural & Civil Works Oversight
- ✓ HSE Leadership & Compliance
- ✓ Fabrication of Pressure Vessels & Steel Structures
- ✓ Cross-Country Pipeline Installation
- ✓ Hot Tapping & Line-Stopping
- ✓ LPG Bowser Fabrication
- ✓ Painting, Coating & Insulation
- ✓ NDT, Pre-Commissioning & Commissioning
- ✓ Power Plant Construction (Combined Cycle & Boilers)
- ✓ Planning, Scheduling & Cost Control
- ✓ Cathodic Protection Systems (ICCP & SACP)

CERTIFIED EXPERTISE OUR TEAM HOLDS

Project Management Professional (PMP®)

Aramco-Approved Project & Construction Management

Internationally Certified Quality Personnel

Certified Six Sigma Yellow Belt Professionals

Managing Safely & Health

CBT-Qualified Quality Team

INDUSTRY REACH

SECTORS & INDUSTRIES WE SERVE

Oil & Gas Production & Processing

Upstream wellpad tie-ins, gas plant piping, hot tapping, flare and process systems for producing fields.

Petrochemical & Refining

Piping, structural, and coating support for refineries and petrochemical process units.

Power Generation

Open and combined-cycle power plant piping, structural steel, and mechanical erection.

Water & Desalination

Piping and mechanical works for water handling, desalination, and utility systems.

Industrial & Mining Infrastructure

Civil, structural, and piping scopes supporting industrial and mineral processing facilities.

Ports, Marine & Storage Terminals

Tankage, terminal piping, and coating works for storage and marine terminal facilities.

WHAT WE STAND FOR

OUR CORE VALUES

CLIENT & COMMUNITY FOCUS

We listen carefully and respond professionally to the needs of our clients and the communities where we work. We encourage the ideas and initiative of every member of our team, because at EVC, each individual makes a difference to the outcome of a project.

INTEGRITY IN OUR WORK

We are honest and professional in every working relationship. We honor our commitments, treat one another fairly, and hold ourselves accountable to the highest ethical and performance standards on every project we undertake.

RESULTS THROUGH TEAMWORK

We respect diversity and build strong partnerships across our organisation, our clients, and our supply chain. We get the job done by sharing knowledge, learning from one another, and pulling together as one team.

KINGDOM OF SAUDI ARABIA

PIPELINE & UPSTREAM CONSTRUCTION

Project	Scope Highlights
Jafurah Upstream Pipelines & Wells Tie-Ins	453+ KM high-pressure RTR pipelines (East/West, PWTN North & South, JFGP), 100 KM fibre-optic cable, wellpad piping & steel structures
Water Handling Debottlenecking, South Ghawar GOSPs	Charge pumps, pretreaters, water-oil separators, SWIP units, corrosion inhibitor skids, multidisciplinary E&I scopes
Arabian Heavy Crude Delivery, Yanbu Terminal	12 hot taps up to 56" dia., shipper pumps, fire protection, 13.8kV switchgear, SIB building
Clean Fuels Project, Ras Tanura	Converted 4 floating-roof tanks to gasoline service; new 36" manifold across 12 tanks
Fuel Gas Pipeline, Hawiyah Gas Plant	1.5 KM underground 14" pipeline, 56"×14" hot tap & tie-in, ICCP/SACP cathodic protection
BTX Filtration System, Hawiyah NGL	Four 44-tonne BTX filter vessels, structural platforms, process/OWS piping
Flare Gas Recovery System, UGOSP-4	Full civil, mechanical, electrical & instrumentation scope

KINGDOM OF SAUDI ARABIA

POWER GENERATION CONSTRUCTION

Project	Scope Highlights
Tabouk Power Plant #2 Extension, Stage VI	Piping prefabrication, erection, NDT & hydro-testing — fuel oil, diesel & firefighting systems
Riyadh PP #10 Combined Cycle Power Plant	70 MW × 32 GE 7EA gas turbines; piping supports, deluge skids, steel structures
Rajhi Steel Mill Extension, Jeddah	Erection of 200-ton/hr reheating furnace — mechanical, hydraulic & piping systems

KINGDOM OF SAUDI ARABIA

PAINTING & COATING

Project	Scope Highlights
Onshore Maintain Potential Project (OMPP)	External Coating Of Pipeline & Piping, Structural Steel, Valves, Fittings. Tank Internal And External Coatings
JIGCC — Sea Water System Division (EPC#06)	Coating On Sea Water Intake System (Concrete Coating), Piping & Structures And Equipment Coating , Fireproofing, Tanks, Insulation
JEC City Commercial Port — Offshore	Atmospheric And Submerged Zone Coating, Deck Coating And Anti-skid Systems, Splash Zone Coating Systems
Reduce Sales Gas Water Content, SGP & UGP	Painting Of Across Gas Plant Facilities
Jafurah Upstream Pipelines & Wells Tie-ins	Well pads Piping & Steel Structures Coating, Personal Protective Coating, Insulation

OUR FOUNDATION, 1991–PRESENT

MAJOR PROJECTS — PAKISTAN (OUR LEGACY)

Project	Client / Scope & Period
Powerhouse Boiler Maintenance	Packages Group Pvt. Ltd. —Painting for boiler maintenance works (2022–present)
Bulleh Shah Paper Mill	Packages Ltd. Pakistan — Painting & coating, DFT/WFT, holiday detection (2013–2016)
Bulleh Shah Power Plant, Kasur	Packages Ltd. Pakistan — Plant equipment construction, steam & fuel oil piping, boiler erection (2002–2009)
Zamzama & Kadanwari Gas Field Pipelines	Pipelink Construction — Pipeline construction, laying, welding, NDT & hydro-testing (2000–2001)
SEPCOL Power Project, Lahore	Central Diesel Export France — Pre-fabrication, erection & installation of all plant piping (1996–1997)
Industrial Fabrication — Gas Plants & Power Utilities	ITTEFAQ Foundries Ltd. — Pressure vessels, boiler drums, storage tanks & steel structures (1991–1995)

TRUSTED PAKISTANI PARTNERS & CLIENTS

Ravi Green Engineering Co.

Descon Engineering

Izhar Group

Packages Group Pvt. Ltd.

FIELD-READY RESOURCES

EQUIPMENT & TECHNICAL RESOURCES

Piping & Welding

Welding machines (SMAW/GTAW/GMAW), pipe fit-up & alignment tools, prefabrication yards

Hot Tapping & Line-Stopping

Hot tap machines, line-stop fittings, and pressure-rated tapping equipment

Lifting & Rigging

Mobile cranes, boom trucks, and certified rigging & lifting gear

NDT & Testing

Radiography, ultrasonic, and hydro-test equipment for weld and system verification

Coating & Painting

Blast cleaning, DFT/WFT gauges, holiday detectors, and coating application equipment

Earthmoving & Trenching

Excavators, trenchers, and pipe-laying support equipment for cross-country work

Power & Utility Support

Diesel generators, air compressors, and site utility equipment

Cathodic Protection

ICCP & SACP installation and testing equipment for pipeline integrity

OUR DIFFERENCE

WHY CHOOSE EASTERN VERTEX CONTRACTING CO.

- ✓ 30+ years of combined, hands-on field experience across Pakistan and Saudi Arabia
- ✓ Aramco-approved project & construction leadership
- ✓ PMP®-certified project management and internationally certified quality personnel
- ✓ Proven delivery on mega-scale piping, pipeline, oil & gas, and power plant construction programs
- ✓ Strong safety culture and HSE compliance across every project
- ✓ A trusted, family-built reputation carried forward from the Mustafai Engineering Company legacy
- ✓ Single point of accountability across construction, piping, coating, and commissioning scopes
